What did they say?

Alice Wang, Trainee of PMPT 2016 (Became a full-time KL interpreter)

PMPT has constantly pushed me outside of my comfort zone and the training was completely market oriented. I only came to realise this when I became a professional interpreter on the market myself. I felt that I was more experienced an interpreter already even though I was just a new graduate.

Dongran Li, Trainee of PMPT 2018 (Went to France to interpret for Cannes Film Festival)

My experience at KL is extremely valuable. My tutors are also my friends who supported me every step of the way, helping me to embark on a real interpreting journey. I have experienced interpreting jobs in different fields on different occasions. Every time I am interpreting, I challenge and fulfil myself.

Qian Wang, Trainee of PMPT 2018 (Went to Sweden to interpret for IKEA)

PMPT covered not only interpreting but also interpreter skills. Experienced KL interpreters provided intensive training and individual feedback. There were opportunities to be paired with them on real jobs. They trained us to become professional interpreters. After the programme, I was fortunate to interpret for IKEA in Almhult, Sweden on behalf of KL—it was an opportunity of my dream.

What does the programme cover?

Interpreting skills

Get to know the methodologies unique to KL and understand why we can follow the speakers more simultaneously in SI and be more precise in CI.

Simultaneous interpreting

Experience how KL interpreters tackle different accents, speed and styles of speaker via a unique set of “Challenger” activities we design!

Consecutive interpreting

Have you thought about where to put your hands when doing CI? Or what to do when you get stuck taking notes? Our seasoned interpreters are here to help.

Sight interpreting

Guided practice to help you think of ways to alter and polish your delivery rather than always using repetition.

UK-Know-What

Public Speaking skills coupled with UK-specific knowledge is often neglected in interpreting teaching. Practise for real with us and listen to your tutor’s feedback on the spot!

Number crunching

Some say numbers are an interpreter’s worst nightmare. It won’t be for you anymore!

Interpreter skills

A term coined by KL. Being technically good at interpreting would not make you a good interpreter. You need to master crucial soft skills in order to stand out in your profession.

Case studies

Constantly rated as the star module by trainees each year. Dozens of thought-provoking case studies from the real interpreting world will be presented and valuable first-hand experience will be shared, such as what to do if a bilingual delegate challenges your interpreting.

Buzzwords

Are you sometimes lost when native speakers say something counterintuitive? We have hand-picked some buzzwords that help you understand two very different cultures.

Job Preparation

Imagine you only have one day or less to prepare for a very technical or specialised conference. How would you equip yourself with the sound knowledge within such a short period of time and do the best preparation for the job?

What’s new in summer?

The 2019 Easter PMPT was fully booked. The 12 participants rated the programme 4.7 out of 5. Based on our survey, 2019 Summer PMPT will include below new elements.
